WALL PANEL SYSTEMS / 05 CATEGORIES

Wall panels, inside and out.

Five panel systems for feature walls, joinery and facades. Application photography, finish ranges and specifications.

Since 2006 | From China | Interior + Exterior

Bamboo charcoal feature wall / residential interior

01 / INTERIOR

Bamboo Charcoal Panels

Lightweight mineral-composite panels with a bamboo-charcoal core. Specified for full-height feature walls, TV walls and joinery in residential and hospitality interiors; installed with adhesive or a concealed clip system.

SPECIFICATION

1220 x 2440 mm / 5 · 8 mm / B1 fire retardant / E0 emission

FINISHES & VARIANTS

- Wood Grain
- Marble Film
- Metallic / Mirror
- Fabric
- Leather
- Water Ripple

02 / INTERIOR

Wood Veneer Panels

Real wood veneer laminated to stable plywood or MDF substrates. Natural, dyed and reconstituted veneers allow consistent grain matching across large wall areas and custom joinery.

SPECIFICATION

Cut-to-size / book-matched / FSC available

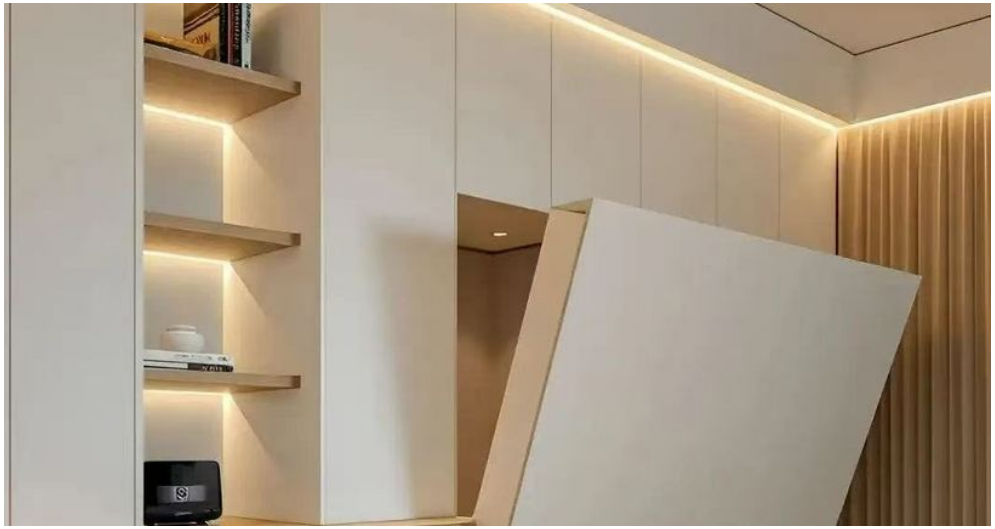

FINISHES & VARIANTS

- Natural Veneer
- Reconstituted Veneer
- Veneered Plywood
- Dyed Veneer
- Quarter / Flat Cut
- Fluted Veneer

03 / EXTERIOR

WPC Fluted Cladding

Co-extruded wood-plastic composite slats for facades, soffits and screens. A capped surface resists UV, staining and moisture while keeping the warmth of timber with minimal maintenance.

SPECIFICATION

135–219 mm profiles / 2.2–3.6 m lengths / 8 standard colours

FINISHES & VARIANTS

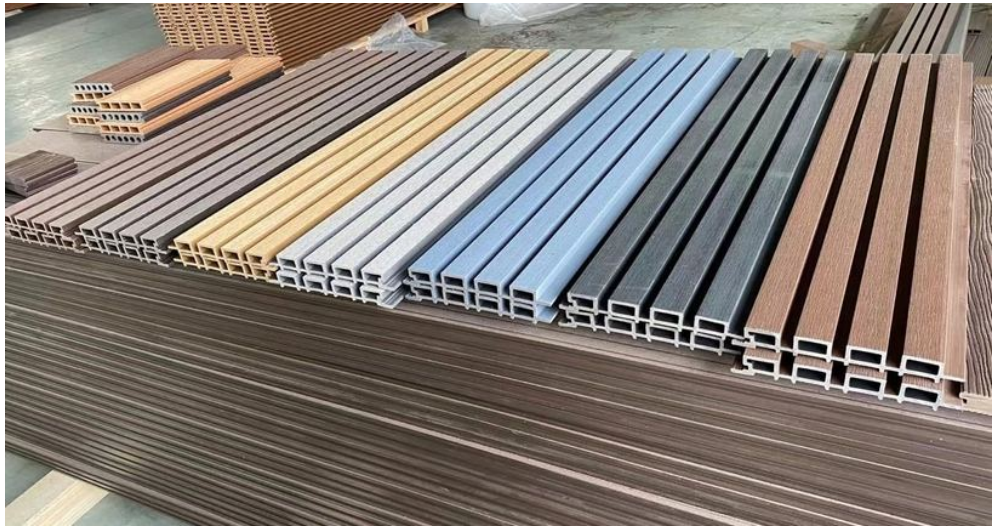

- Co-extrusion Slat
- Capped Grooved
- Wavy Louver
- 3D Embossed
- Multi-Slat
- Solid Colour Range

04 / EXTERIOR

Insulated Metal Wall Panels

Insulated metal wall panels (IMPs) with an embossed, profiled galvanised steel skin and a rigid polyurethane core. Supplied in brick, stone, timber and mineral patterns, they give exterior facades thermal performance and a fast, dry installation.

SPECIFICATION

16 / 20 / 25 mm x 383 mm / 113 pattern catalogue

FINISHES & VARIANTS

- Brick Pattern
- Wood Grain
- Tile-Groove Series
- Stone Texture
- Flat / Mosaic Series
- Marble Pattern

05 / EXTERIOR

Exterior PU Stone Panels

Moulded polyurethane stone panels that reproduce split stone, slate and castle-rock reliefs at a fraction of the weight of natural masonry. UV-stable and rated for exterior facades.

SPECIFICATION

1200 x 300 / 600 mm / 15–100 mm relief / UV-stable exterior grade

FINISHES & VARIANTS

- Castle Stone
- Slate / Mountain Rock
- Lunar / Geometric
- Mushroom Stone
- Cultural Brick
- Large Board Format
